Portable outdoor power supply. MARSTEK"s portable outdoor power supply adopts a stackable design, featuring a rugged appearance and a strong sense of technology. It is easy to carry and install, and a single system"s maximum capacity can be expanded up to 6720Wh, with multiple power inputs and outputs from 500W to 2400W.

When running off-grid (i.e. power outage or grid failure), the 5kW~7.5kW high power can easily meet daily electricity consumption, while also quickly arbitraging peak and valley price differences, realizing energy recovery and utilization, and saving electricity bills. MARSTEK fully utilizes the advantages of the entire industrial chain.
