Lying 1.5 miles off the northeast coast of St. Croix, in the center of a vast marine sanctuary, Buck Island Reef was guaranteed protection when U.S. President John F. Kennedy named it the first U.S. underwater national monument in 1961. The reef here features elkhorn coral grottoes and is one of the best dive sites in the U.S. Virgin Islands ...

SAFCell believes SAFCs to be a superior technology to current fuel cell types under development for medium to low power applications due to their intermediate (200-300°C) operational temperatures. Our technology enables enhanced fuel flexibility, greater variety of catalyst utilization, and extensive simplification of reformer systems.

The United States Virgin Islands, a US island territory, consists of several islands and cays in the northeastern Caribbean Sea. The country is located 1,100 miles (1,770 km) southeast of Florida, 600 miles (966 km) north ...
