Valent power Laos

This vision is what originally inspired Valent Power to begin developing electric vehicle quick-chargers in 2011. After running a successful Silicon Valley hardware company for 25 years, Valent Power CEO Corwin Nichols knew that he wanted to take part in the EV movement when he purchased a Nissan Leaf in 2011.

4 | Page Valent VPR Series and Innovent Controls Lite Supplement Third-Party Control Responsibilities Occupancy, temperature, airflow, and third-party device power with Controls Lite are the responsibility of the third party through a third-party device. This control not only includes the timing of each occupied mode, but logic for enabling and

The Valent or Innovent controller receives 24 Vac power from a transformer on the main control panel and is energized when the main disconnect is on The size of the Carel c pCO board varies with unit configuration Figure 1: The Valent or Innovent controller uses a ...

As specified by the DOE"s 2020 goals, the new inverter will bring the cost of the power electronics to $3.30/kW (produced in quantities of 100,000 units), power density to 13.4 kW/l, and specific power to 14.1 kW/kg, with an efficiency of greater than 94%. The inverter is intended to be modular and scalable to meet all vehicle applications.
