Western Sahara lti reenergy

Who is LTI ReEnergy cleantech?
LTI ReEnergy CleanTech GmbH is a leading German automation company groupfounded 50 years ago and has started to be active in the renewable sector in wind energy since 1999 and solar energy since 2007.

Where is LTI based?
Beyond its robust Germantechnology and European and Middle East engineering base,LTI has successfully set up a technical project development arm acting out of the UAE and a project funding and financial structuring business arm incorporated in London.

What does LTI do?
Under LTI's supervision, they work to complete projects at foreseen budgets, timelines, and energy generation levels to de-risk the financial investments during the construction phase.

How does LTI ensure project viability?
LTI also assures the project viability by structuring the debt and equity investmentsafter the grid connection and commercial operation commencement date and the bridge funding for the construction period and some of the world's largest EPC companies.

Dr Wolfgang Lust of LTi REEnergy GmbH says: "LTi REEnergy and Moog, as two fast-growing companies, are actually an excellent strategic match to join together. Moog"s investment in our company means that we will be able to strengthen our leading position on the international market and optimally handle our fast-paced growth."

The conflict in Western Sahara has been unresolved for fifty years. While Morocco is positioning itself as a

pioneer in green energy, climate change is exacerbating the situation for the people in the Sahrawi refugee camps. To ensure that they are not forgotten, the young activist Fatma Moulay works tirelessly for justice.

The first round of land allocations in Morocco"s green hydrogen investment process may soon be completed and is likely to include substantial areas in the contested territory of Western Sahara. African Energy has identified projects requiring the installation of at least 72GW of wind and solar generation, and more are likely to follow.
