SmartHelio is a clean-tech start-up based out of Lausanne Switzerland. We optimize the return on investment for both solar roof-top and mini/micro-grid companies, and their clients using our IoT sensor technology and AI-based data analytics.

Deep-data analytics and decision-making tools for smart solar assets management, financials & business insights for maximized outputs. Algorithms successfully tested and validated on real solar PV data sets.

SmartHelio provides a software that helps solar utilities automatically predict and prevent downtime disruptions. We help solar utilities to generate extra $200k per plant income on $10k spent using our software, by preventing 700 faults per year.
