Yeo energy Ghana

Who is Yeo Teknoloji Enerji ve Endüstri?

YEO Teknoloji Enerji ve Endüstri A. S. | We Think It's Possible! It started its operations to provide one-stop research and development, design and engineering, procurement and production, operation and maintenance services in energy storage systems.

How much energy is needed in Ghana?

Around $70 billionof cumulative energy supply investment is needed in the STEPS,60% of which is for upstream oil and gas. Investment ramps up by nearly 45% in the AC,with a strong emphasis on renewables and electricity networks. Thanks to notable efforts on electrification,the goal of full access is within grasp in Ghana.

Is Ghana a good place to get electricity?

Thanks to strong government leadership since the 1990s,Ghana had an electricity access rate of 84% in 2018,one of the highest in sub-Saharan Africa. To reach the remaining population,grid densification (58% of the new connections) and stand-alone systems (27%) are the two main least-cost solutions in both scenarios. IEA. Licence: CC BY 4.0

Why is Ghana a small producer of oil & gas?

Ghana remains a relatively minor producer of oil and gas in Africa. Gas demand grows strongly in the AC,lowering oil use in the power and industry sectors; this increases the need for imports of gas. billion dollars (2018) IEA. Licence: CC BY 4.0

Where does Ghana get its power from?

Ghana's power supply sources are from hydroelectricity, thermal fueled by crude oil, natural gas and diesel, solar and also imports from La Cote D'Ivoire. Ghana also exports power to Togo, Benin and Burkina Faso. Ongoing grid expansions would allow further exports to other neighboring countries in the sub region.

How is the petroleum industry regulated in Ghana?

For the purposes of regulation in Ghana,the industry is divided into Upstream and downstream subsectorswhich cover activities from the exploration and production of petroleum through refining,storage,transportation,to the marketing of petroleum products.
