Ã…land rollo power solutions

In a complex world, plant specialists, Rollo simplifies the way you service and manage your mixed fleet, offering a new approach from an established brand. Operating since 1933, Rollo has a long, established and successful heritage in the power generation and plant industries.

Rollo Power Solutions offers a "one stop shop" approach to customers" stand by power and marine requirements. With locations at Grimsby & Bristol we can offer all our services at a local level to suit your business needs. Our experienced and professional team offer supply of stand-by generators and provide installation as a full turn key project.

In 2018, Rollo diversified into the plant industry, to become plant experts providing safe, simple servicing to mixed-fleet plant and power generation customers and increasing the range of parts to include quality alternative, maintenance and consumable parts.

Fully trained to industry standards, with proven capability, we are passionate about optimising the performance, efficiency and reliability of your power system. Working in close partnership with many engine manufacturers, Rollo have been recognised as an authorised UK distributor for some of the most valued brands in the industry.

Rollo Power Solutions. Diesel and turbocharger engineers, Electrical engineers, Pipe work, welding and fabrication. All associated work carried out in engine room and on deck machinery. Multi brand engine parts supplier. Request information

Simplify the way you service and manage your fleet with fast, flexible support from Rollo. Our national network of field engineers use the latest, specialist equipment, and are fully trained to service and support all types, makes and models of plant and power generation equipment.
